Instructor Guided Practice Skills

SECTION 5

6. The movement of this figure from quadrant II to quadrant III would best be described by which of the following?

- A translation
- B reflection
- C dilation
- D transportation

If the coordinates of point A are $(-3, 3)$, then what are the coordinates of point D?

If $\triangle ABC$ is moved 3 units down and 2 units to the right, what are the new coordinates of point C?

If $\triangle DEF$ is moved 3 units up and 2 units to the right, what are the new coordinates of point D?

7. Find the numerical patterns from these exponential expressions.

4, 4^2 , 4^3 , 4^4

5, 5^2 , 5^3 , 5^4

Write the exponential pattern from this sequence of numbers.

10; 100; 1,000; 10,000; 100,000.....

6. There is a report of a missing horse in a heavy brush area of this ranch. The shaded area is where the horse is expected to be located.

An (X) marks the start of the search. The search group heads west for 5 units and then makes a turn due south for 2 units. Which of the following ordered pairs will be the new location of the search group?

- A (5, 2)
- B (3, 1)
- C (1, 3)
- D (2, 5)

7. The Random Survey Company selects persons from a data base of names using a sequence of numbers. They will survey those people who are part of this sequence:

3, 32, 33, 34.....

Which of the following sequence of numbers represents this pattern?

- A 3, 4, 5, 6.....
- B 3, 6, 9, 12.....
- C 3, 9, 27, 81.....
- D 3, 32, 33, 34.....

 SECTION 8

3. Convert these fractions, decimals, and percents.

	<u>FRACTION</u>	<u>DECIMAL</u>	<u>PERCENT</u>
I	$\frac{1}{5}$	---	---
II	---	0.25	---
III	---	---	50%

4. Determine which of the following two pairs of triangles are *similar*.

3. Tammy made 75% of her free throw attempts during the championship game. How can this be represented in fraction form?

- A $\frac{1}{2}$
- B $\frac{2}{3}$
- C $\frac{3}{4}$
- D $\frac{4}{5}$

4. Which of the following triangles is similar to triangle XYZ?

Grade 7 Samples
